

VERBANO FILM is a producer of transparent and colored polypropylene films, packaged in reels and intended to be used by its customers to produce packaging.

The characteristics of the materials are such as to prevent their physical labeling, as it would compromise the technical-quality requirements; the company has therefore decided to prepare this document to inform its customers on the issue of environmental labeling of packaging.

All the codes produced by VERBANO FILM are polypropylene packaging materials intended for B2B (Business to Business) customers, and the reference environmental labeling pursuant to Decision 129/97/EC is "PP5"

Concerning the materials used for the packaging of the reels, below is the relative list* with the information referring to the material, labeling, and indications for collection as waste.

MATERIAL	PACKAGING TYPE	LABELLING	WASTE SORTING TYPE
Wood	Pallet		WOOD
	Flanges		
	Panels		
	Wedges		
	Strips		
Paper	Sheets		PAPER
	Tubes		
Plastic	Stretch		PLASTIC
	Air bubbles sheets		
	Strapping		
	Flanges		
	H Profiles		
	Closing Top		
	Cylindrical caps		

* The above list is to be considered a summary of everything used by VERBANO FILM to package its products, it is therefore not to be understood as a list used for a specific customer.

This document is to be understood as an integral part of the accompanying documentation sent to customers with each supply and is available for consultation on the company website www.verbanofilm.it ; the version on the site is to be understood as the version in effect at the time of supply.
