

QUALITY POLICY

VERBANO FILM is a company founded in 1987 that operates in the packaging sector producing flexible cast polypropylene films mainly for the food, medical, textile and automotive sectors. The company operates both on the national and international market, with particular interest in the European one.

QUALITY

In VERBANO FILM everyone is responsible for the quality of their work; we work proactively to satisfy all customer requests by maintaining a high-quality standard of the products and paying the highest attention to all aspects of the service. Our quality management system is based on the ISO 9001 standard, therefore the analysis of the reference context, the expectations of the interested parties and the evaluation of the degree of customer satisfaction are the basis of our organization.

SAFETY, HEALTH AND ENVIRONMENT

VERBANO FILM is committed to keeping workplaces healthy and safe through the implementation of measures aimed at reducing accidents and injuries as well as promoting the improvement of production plants and the working environment. We also pay attention to minimizing environmental impacts, promoting the efficient use of energy, and preventing the production of waste.

R & D

VERBANO FILM has always been an ideal partner for customers who intend to develop new products; thanks to our experience and our internal laboratory, we are able to create items to customer specifications while maintaining the quality and safety of the product as fixed points.

HUMAN RESOURCES

The growth of its personnel is an aspect that VERBANO FILM considers of priority importance; continuous training and information activities are carried out for personnel at all levels and on issues relating to quality, food safety and product sustainability. All personnel are responsible for following company procedures to contribute to the positive implementation of the company policy and continuous improvement objectives.

PRODUCT SAFETY

VERBANO FILM, also through compliance with the requirements of the international BRC GS Packaging standard, is strongly committed to the creation of safe products that comply with all applicable legal requirements to protect the entire downstream supply chain up to the final consumers, paying close attention to elements such as traceability and the adoption of best manufacturing and hygiene practices.

PRODUCT SUSTAINABILITY

VERBANO FILM undertakes to comply with the requirements of the ISCC PLUS international standard to produce sustainable materials to reduce the environmental impact of its products by promoting the ecological transition towards the circular economy.
